

# Don't trash fluorescent lamps! *Recycle them.*

Fluorescent and High Intensity Discharge (HID) lamps contain mercury. Improper disposal releases mercury into our air, water and soil, harming human health and wildlife. For more information on state regulations and required management options visit <http://www.newmoa.org/lamprecycle>

**Recycle Your Lamps.**

**Proper lamp management minimizes your liability.**

*Sponsored by the Northeast Waste Management Officials' Association (NEWMOA). This is an EPA Funded Project.*

**(Hg)** reminds us that fluorescents contain mercury and must be managed properly.
