

Tanning Bed Lamps Out?

RECYCLE.

All generators of used fluorescent and other mercury-containing lamps ARE RESPONSIBLE BY LAW for their proper management.

STEP 1: CONTACT A LAMP RECYCLING COMPANY. Visit www.newmoa.org/lamprecycle for a list.

STEP 2: CAREFULLY REMOVE SPENT LAMPS according to the tanning bed manufacturer's directions.

STEP 3: DO NOT CRUSH OR BREAK LAMPS - lamps that contain mercury pose significant health risks.

STEP 4: PLACE LAMPS IN THE BOX provided by your lighting sales company or a lamp recycler.

STEP 5: Once the box is full, HAVE YOUR LAMPS PICKED UP FOR RECYCLING.

For more information, contact the Hazardous Waste Staff at the Maine Department of Environmental Protection, 207-287-2651.

Look for the **Hg** symbol, which means the lamp contains mercury and must be recycled.

Printed on recycled paper.
