All tanning bed lamps are hazardous by law and must be recycled.

STEP 1: **CONTACT A LAMP RECYCLING COMPANY.** Visit www.newmoa.org/lamprecycle for a list.

STEP 2: **CAREFULLY REMOVE SPENT LAMPS** according to the tanning bed manufacturer’s directions.

STEP 3: **DO NOT CRUSH OR BREAK LAMPS** - lamps that contain mercury pose significant health risks.

STEP 4: **PLACE LAMPS IN THE BOX** provided by your lighting sales company or a lamp recycler.

STEP 5: Once the box is full, **HAVE YOUR LAMPS PICKED UP FOR RECYCLING.**

For more information, contact Paul Lockwood at the New Hampshire Department of Environmental Services at 603-271-2956.

Look for the \( \text{Hg} \) symbol, which means the lamp contains mercury and must be recycled.
