

Institutional & Commercial Food Scrap Recovery

Moderator: K.C. Alexander, DEEP

Speakers

Lee Kane, Whole Foods Market

CJ May, Yale University

Lorenzo Macaluso, Center for EcoTechnology

Things to Think About Today

1. Where Are the Opportunities?

- To collect & process more materials?
- To increase # of businesses that process or make new products with recycled content?
- To strengthen markets locally, regionally, nationally?

2. What Are the Challenges We Face to Take Advantage of These Opportunities?

- Should we pursue policy? What kind?
- Should we create incentives? What kind?

3. Are There Good Existing Models for Policy & Program Development or Incentives?
