Food waste makes up more than 20 percent of our trash – over 38 million tons in the U.S. each year. What’s worse – much of that food is edible and could feed people in need. In the Androscoggin Valley, over 15 percent of households struggle with food insecurity. When you donate food, you can help feed people in your community and you can save money.

Why Donate Food?
- Helps families in need
- Reduces waste disposal costs since food is diverted from the landfill or compost facility
- Provides tax deductions for businesses that donate food to 501c3 non-profit organizations

Preparing Donated Food
As you prepare a food donation, remember that it is for people to eat and needs to be handled accordingly. This includes following temperature and storage guidelines – these differ depending on the type of food. For example, prepared food needs to be labeled and kept in protective packages, covered containers, or wrappings without any rips, tears, bulges, or leaks. Guidance is available on the USDA Foodkeeper App: www.foodsafety.gov/keep/foodkeeperapp/index.html

Donors Are Protected from Liability
The *Bill Emerson Good Samaritan Food Donation Act* was passed by the U.S. Congress in 1996 and provides federal liability protection for the donation of food that was properly handled and stored before donation. Under this Act, as long as the donor has not acted with negligence or intentional misconduct, they are not liable for damage or illness.

NEWMOA is an equal opportunity provider and employer.
What Foods Can I Donate? Many types of food can be donated, as shown in this summary of donation guidelines developed by Feeding America.

<table>
<thead>
<tr>
<th>TYPE OF PRODUCT</th>
<th>HANDLING &amp; STORAGE REQUIREMENTS</th>
<th>CODE DATE REQUIREMENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prepared meals</td>
<td>Food can never have left the kitchen or have been served to the public. Thawed meals must be refrigerated at 41° F or below and frozen meals must be kept at 0° F or below</td>
<td>Frozen meals can be donated within 3 months of being frozen, thawed meals must be donated within 3 days, and baked goods within 3-5 days</td>
</tr>
<tr>
<td>Packaged meats</td>
<td>Meat must be frozen at 0° F or below</td>
<td>Must be frozen on or before the code date and donated within 3 months after the date it was frozen</td>
</tr>
<tr>
<td>Perishable goods</td>
<td>Dairy and pre-cut produce need to be refrigerated at all times at 41° F or below. Whole produce should be stored in a cool, dry area</td>
<td>Produce must be in edible condition – no mold. Liquid dairy, (e.g., milk) must be donated before the date code. Other dairy products (e.g., cheese and yogurt) can be donated up to 7 days past the date code</td>
</tr>
<tr>
<td>Non-perishable items</td>
<td>Stored in original containers off the floor</td>
<td>Must be donated within 30 days after the code date</td>
</tr>
</tbody>
</table>

Note: If food looks or smells bad, is moldy, or has damaged packaging – do not donate it. Much of it can be composted – so don’t throw it out. For composting questions, contact Mark King at ME DEP at (207) 592-0455 or check out NEWMOA’s composting documents available at: www.newmoa.org/solidwaste/projects/food/publications.cfm.
