Video Library

This page lists the online RCRA videos. Use the table below to find the video that you are interested in. You can start an online video by selecting the "View" link from the list below.

Note: For the permit writers' videos, (Sessions 01-15) take each one in turn to learn about the permitting program.

If you're new to this site, the best place to start is with the Independent Development Plans (IDPs) located at <https://ertpvu.org/RCRA/Documents/IDPs and EPA-State Calls/RCRA IDP-ERTPVU.xlsx>. The IDPs are organized by 14 different subject matter areas (e.g., basic curriculum, permitting). All trainings relevant to those areas are linked from within the IDPs, including links to the resource items, webinars, and videos. To access a training, click on the respective link.

Note: some links will need to be cut and pasted into your browser and are noted as such.

Search by Course Name or Keywords:
