

Community Gardens

Group Circle & Introductions

If MLCS were to have a community garden, what three items would you choose to grow on your plot?

What is a Community Garden

Through an environmental justice lens, community gardens provide a platform for locally produced foods, and is an environmental benefit that creates a green space allowing an environmentally, socially and individually healthy activity and food source.

Group Discussion

Relating to last week's activity,
how can community garden
empower BIPOC and low-
income neighborhoods?

Let's visit
