Added Products Reporting System

Education and Reduction Clearinghouse (IMERC) Mercury-Added Product Reporting System enables companies to comply with the Mercury-added Product Exemption requirements of Connecticut, Louisiana, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, and Washington.

Reporting, and Phase-out Exemption processes, including form and attachment requirements are handled through the e-filing System. Users can get help needed under the login fields, which provides a PDF document to assist users in the reporting process. If you need assistance during your submission, please review the IMERC Coordinator's website.
